Driven from Hodses by Flood.

San Jose, Calif., March 26—Twenty-five people have been driven from their homes and fully 100 more are temporarily imprisoned by flood conditions in the southern portion of the city, due to the overtaxed Coyote creek which has left its banks at a point 12 miles south, and inundated a wide tract of fertile valley land. Sunday's storm served to aggravate conditions in the outlying districts, particularly San Jose and Cottage Park. Both of these residence sections are covered with water, in some places three or four feet deep.

NEGRO IS LYNCHED; RIDDLED WITH BULLETS

Tied to Tree With Hands Up And Put to Death.

WOMAN WAS SAVED BY CANINE

Would-Be Assailant Was Captured, and, After Being Identified by Mrs. Rice, Was Shot to Death Near Her Home.

Florence, Ala., March 26—The negro, Cleveland Harding, who attempted to assault Mrs. Ben F. Rice near here Friday, and who was driven off by Mrs. Rice's shepherd dog, was summarily executed Sunday by his intended victim's husband and some 200 or 300 sympathizers.

Tied to a tree, with his arms up, the negro was riddled with bullets, the first shot being fired by Rice, following which it is said every man in the crowd emptied his revolver at the prisoner

It is said that over 1,000 shots were fired. The negro was captured half a mile below town, and was taken before Mrs. Rice, who fainted at sight of him.

Upon recovering, she fully identified her assailant, and on being asked what should be done with him, told the negro's catptors to do as they though best.

Harding was taken a short distance from the Rice home, where a conference of the mob leaders was held. Some said burn him, but shooting was decided on.

Beyond confessing his guilt, the negro had nothing to say, and was stolidly indifferent, it seemed, to his fate.

The body was left tied to the tree by the mob, members of which made no attempt to shield their identity.

The sheriff overtook the crowd before the lynching, but his appeals were unavailing.

Favor Establishing Line of Steamers.

New Orleans, March 26.—Representative F. J. Garrett, of Dresden, Tenn., who arrived here Sunday with a party of congressmen from Panama, said that the Mississippi congressmen on a visit to Panama, were impressed with the necessity of establishing a line of steamers out of a gulf port, possibly New Orleans, to handle the trade of the Mississippi valley to Panama. He said also that the congressmen of his party found only minor details as subjects of criticism on the canal while the main features of the work are progressing rapidly. They are doing the work and making a good showing, he said. Other congressmen in the party arriving Sunday were E. C. Ellis, of Missouri, J. T. Robinson, of Arkansas and Congressman Broussard and Congressman Ransdell, of Alabama.

Man Found Dead; Gas Fills Room.

Augusta, Ga., March 26.—The residence of Matthew O'Mahoney was visited by a frightful tragedy early Sunday morning, when members of the household found Matthew O'Mahoney dead in his bed and the room filled with gas. It was believed at first that the man had been the victim of his own carelessness, but investigation showed that though there was gas in the room the gas jets were all closed and none was escaping. The coroner's inquest brought to light a supposed explanation which leads to the saddest phase of the tragic end. Mrs. O'Mahoney, wife of the deceased has been insane for months.

Man Passed for Woman.

Granada, Spain, March 26—A curious case of a man masking as a woman has developed here. For some years the man has posed here as a woman teacher of English and during that time has received several offers of marriage. Recently the supposed woman presented herself to a branch of the bank of Spain with a draft made out with the first name as that of a man. The cashier refused to pay the draft. Pretty soon the person came back dressed as a man. The bank made inquiries and learned ... was actually

GIRL FACES MURDER TRIAL.

Confessed to Killing Baby Because She Loved It Too Much.

New York, March 26.—Jennie Burch, a quarter breed Mohawk, who in September last poisoned the infant son of Herbert Winship, a rich farmer of Cowles Corner, Putnam county, was placed on trial Monday for her life at Carmel, N. Y. It is her fifteenth birthday.

On the day of the baby's burial she flung herself on the child's casket and sobbed out a confession of how she fed the infant a poisoned peach. She said she had loved her little charge and because of her great love, she killed it. Medical men and others of science, who have examined and studied the girl, differ as to her sanity.

Jennie Burch was a waif and was given a home by the Winship family four years ago. The farmer and his family treated the girl as one of their own. When the baby, Wilbur, was born Jennie Burch became its guardian and her love rivaled that of the girl's mother. No one had been able to give a satisfactory explanation of the crime.

The murder itself had been precedented by several incendiary fires, which the girl had admitted she was responsible for. First the barn was burned and then followed nine different attempts to burn the Winship house, and Jennie's explanation of her action is that she wanted to see the "flames shoot up."

After the barn had been burned she imagined she was suspected, and this thought preyed on her mind. When she had decided to kill herself, she thought of the baby and concluded that the child should die with her.

She poisoned a peach and giving the child a portion of it, ate the remainder herself.

Within half an hour the girl and the infant were taken violently ill. Mrs. Winship did all she could for both of them. Before night set in the baby died, but Jennie Burch recovered.

The girl insists that she poisoned the peach with iodine. Chemists employed by the state say that the poison that killed the child was strychnine.

The girl is to be tried before Justice Mills, of the supreme court who has appointed two lawyers to defend her. It is believed that they will attempt to prove insanity at the time of the murder.

Georgia Mayors To Meet.

Macon, Ga., March 26.—Mayors of over one hundred Georgia cities are anxiously awaiting news from Athens giving the dates for the annual convention of the League of Georgia Municipalities. The convention this year is to be held in Athens, Ga., and it remains with Mayor Dorsey, of that city, and the city council to fix the dates. May 29 and 30 have been proposed but no final selection has yet been announced. The mayors wish to meet in time to arrange certain measures that are to be presented to the general assembly, which meets in June. Several matters were carried before the legislature last year by representatives of the league and final action will be taken upon them this summer.

Spurns Offer of Pardon.

Abilene, Kans., March 26.—Former United States Senator J. R. Burton, after delivering the speech which he had prepared in advance, made the statement Saturday night that the president offered him a pardon. He said: "Five days after I was in jail the president offered me a pardon. It came to me personally at Ironton. The communication was over the signature of the pardon clerk. I never answered it. I would not answer it. I would not accept a pardon from him under any conditions. He, gentlemen, he is the one that should have the pardon."

Death Came Very Suddenly.

Montgomery, Ala., March 26.—While the funeral of his closest friend was taking place Edward T. Jones, a native of Springfield, O., and a popular citizen of Montgomery, died suddenly at his home. Mr. Jones was indisposed and remained at home with Mrs. Jones, insisting that members of his family should go to the funeral of P. C. Harrison. When they returned Mr. Jones was dead. A physician said he offered the bursting of

Many Buildings Burn.

Pittsburg, Pa., March 26.—Fire that started from an explosion in the U. Baird Machinery company's plant in Pennsylvania avenue Sunday, in less than half an hour had swept away all the buildings between Liberty avenue and Spring alley, from Twenty-sixth street almost to Twenty-seventh street. Three alarms were sent in in rapid succession, but the firemen could no nothing to save the plants. The Baird plant, that of the Brown & Zortman Machinery company, and the Simonds Manufacturing company were all wiped out, and some fifty dwellings across Spring alley were badly damaged. The loss is estimated at nearly $250,000.

Withdraws Writ of Error.

San Francisco, March 26.—Abraham Ruef's attorneys have, it is said, withdrawn their writ of error filed with the United States supreme court and state that they are now anxious to proceed at once with the trial on a charge of extortion. Attorney F. Murphy said Sunday night that "we have instructed our representative in Washington to withdraw the writ of error filed by the United States. This decision was reached on account of the state supreme court to the effect that the participation of an incompetent juror does not affect the validity of an indictment. We will proceed without further delay with the trial of Abraham Ruef."

Unable to Find Kidnaped Boy.

Hamburg, March 26.—The local police have been unable to find any trace of "Eddy Krieger," the abducted son of George Krieger, of Chicago, who was, it is claimed, secretly taken away from here last week in an automobile by two masked persons. His mother, who was divorced from Krieger, and has since married a doctor by the name of McDonald, came to Germany in order to obtain possession of the boy with the result that the superior court of Hanover adjudged the lad to her. She brought him from Hanover, where he had been staying in a boarding house to this city, but the lad disappeared.

Rome, March 26.—An anti-clerical demonstration occurred Sunday in the Church of San Cailoal Corsos. THE PRESBYTERIAN CHURCH.

Fortieth Anniversary Observed Sunday—Good Congregations.

The First Presbyterian Church of Gainesville, which was the first church established in this city, observed its fortieth anniversary Sunday, and the services both morning and evening were well attended.

In the morning, Rev. Thos. P. Hay delivered one of his most interesting sermons, which was full of sound advice and good judgment from beginning to end. The large congregation appreciated his effort, which was one of the best sermons ever heard from the pulpit of this church.

In the evening Elder Christopher Matheson delivered an historical address, relating to this particular church and its work. Elder Matheson exerted his usual eloquence, taking up the church from the time it was established to the present. His remarks were very instructive.

At the morning service there was a reception held for several new members, recent acquisitions to the church.

County Judge's Court.

There were six cases brought in the County Judge's court Tuesday, all being the same in substance.

The cases were the Gainesville Company vs. Sam Mitchell, Sr., Sam Mitchell, Jr., and Anderson Johnson, petition for removal of tenant.

The complainant charged that the defendants occupied the property of the complainant after their terms of rent expired, and they refused to vacate same. The property in question is in the Rutledge neighborhood.

The case of Sam Mitchell, Sr., was argued before Judge Mason, while the cases of Johnson and Sam Mitchell, Jr., went before a jury. A verdict for the complainant was found in each case.

Attorney W. S. Broome appeared for the complainant, while Baker, Matheson & Baxter represented the defendants.

Three cases were postponed, being The Gainesville Company vs. Tom Reed, Asa Presley and Reason Hall.

In Mayor's Court.

There was an uninteresting session of the mayor's court Tuesday morning, only two cases of minor importance having come up, and both of these were discharged.

Rosa Hall was arraigned upon a charge of using profane language, the charge being preferred by Lillie Clark. She was discharged for lack of evidence.

William Irvine, charged with breaking into a house, was also discharged for the same reason.

A SERIOUS FIRE AT EDDINS' MILL

Twenty-Five Thousand Went Up in Smoke in a Very Short Time.

THE LARGEST PLANT IN THE CITY

The Eddins Manufacturing Company Owns the Second Largest Sash, Door and Blind Factory in the State, and is an Important Industry.

One of the most disastrous fires which has visited Gainesville in many years was that which occurred Tuesday morning, when, at 10:30 o'clock, the alarm was turned in from Box 82, located at the junction of the Atlantic Coast Line and Seaboard Air Line railways, at the foot of West Main street.

This is virtually in the center of the heavy manufacturing interests of the city, the majority of the mills and factories being located in that vicinity. The alarm naturally caused a great deal of anxiety, and more when it was observed that a heavy fire was raging in close proximity to the alarm box.

The fire was in the main building of the Eddins Manufacturing Company, one of the largest concerns in the city, and the second largest sash, door and blind factory in the State.

As soon as the alarm was sounded, persons looking in that direction observed great volumes of black smoke curling into the air, and a large crowd was attracted to the scene, though powerless to be of any assistance, as the building was well under way before the alarm was turned in. Notwithstanding that the department responded promptly, it was useless, as far as saving the building was concerned, as a high wind prevailed, and it would have been impossible for all the forces of the country to have furnished sufficient water to have had any effect. The firemen did work nobly, however, and it was only through their heroic efforts that adjoining buildings were saved.

The building destroyed was practically a new one, having been completed only about two years ago. It was a large building, and contained a number of valuable machines, comprising planers, matchers, and other machinery necessary to the manufacture of sash, doors, blinds and cabinet work. The machinery was all practically new and modern, and represented many thousands of dollars

The Eddins Manufacturing Company employ probably more men than any other concern in the city, and by this conflagration at least twenty-five men are temporarily thown out of employment. This will mean not only a serious calamity to the owners of the plant, who estimate their damage at about $25,000, but also to these mechanic wage-earners, many of whom have families, and they must now seek other employment, temporarily at least.

Mr. Eddins stated to a Sun reporter Tuesday that his loss would be about $25,000, part of which was covered by insurance. He could not then recall just how much insurance he carried on that section of the plant lost. He was not positive as to his future action in the matter of rebuilding, but as the business has apparently proved profitable, it is natural to suppose that he will rebuild.

The fire is supposed to have originated from a live coal being blown from the boiler-room into the shaving chute, where the flames were first discovered.

THEY DIDN'T MOVE.

Clever Demonstration of Miss Tebeau's Influence Over Her Pupils.

For a quarter of a century or more Miss Maggie Tebeau has taught school in Gainesville, and a very successful school, too, it has always been. Miss Tebeau, by her gentle yet determined manner, was always the mistress of the situation, and, while her pupils have been compelled to mind her through the natural influences which she has brought to bear, it is sometimes a rather difficult problem to hold them in times of unusual excitement.

Tuesday was one of these times. When the alarm of fire was turned in from Box 82, these pupils, the majority of whom are posted on the location of fire alarm boxes as well as everything else, realized that the conflagration was in the vicinity of their school; and when they looked out and saw the great volumes of black smoke leaping skyward for a hundred feet or more, it was enough to arouse excitement.

But Miss Tebeau was cool, as usual. She commanded the pupils to remain in their seats, which was sufficient, and with only two or three exceptions, whom she excused by request when it was noted that the fire was in close proximity to their homes, perfect order prevailed.

This is indeed a compliment to both Miss Tebeau and her pupils, as it goes as an evidence of the discipline of the school and a reverence for the teachers.

WILL HOLD COTTON SCHOOL.

Farmers' Union Will Hold an Institute at Barnesville.

Barnesville, Ga., March 25—Plans were agreed upon at the convention, held in this city during the week, of the Farmers' union, for the establishment of a cotton school to be held at Barnesville during July and August, and every arrangement will be made for making it a great success.

Experts on cotton will be secured for giving lectures for the purpose of instructing farmers in the handling of cotton. These lectures by experts will cover grading, marketing and the handling of cotton in all its phases and conditions.

President Duckworth and the other state officials here are quite enthusiastic over the movement and expect hundreds of farmers from all over the state to be in attendance on the school. It is asserted that the instructions given at that time will be of the greatest practical value to cotton growers. A similar work in Texas has resulted in much benefit, and the members of the Farmers' union will avail themselves of the opportunity to become familiar with the technical handling of their chief product

AILING WOMEN

How Many Perfectly Well Women Do You Know?

MISS GRACE E. MILLER MRS. W. S. FORD

"I am not feeling very well," "I am so nervous it seems as though I should fly." "My back aches as though it would break."

How often do you hear these significant expressions from women friends. More than likely you speak the same words yourself, and there is a cause.

More than thirty years ago Lydia E. Pinkham of Lynn, Mass. discovered the source of nearly all the suffering endured by her sex. "Woman's Ills," these two words are full of more misery to women than any other two words that can be found in the English language. Sudden fainting, depression of spirits, reluctance to go anywhere, backaches, headaches, nervousness, sleeplessness, bearing-down sensations, displacements and irregularities are the bane of woman's existence.

The same woman who discovered the cause of all this misery also discovered a remedy, Lydia E. Pinkham's Vegetable Compound made from native roots and herbs holds the record for a greater number of absolute cures of female ills than any other one remedy the world has ever known and it is the greatest blessing which ever came into the lives of suffering women.

Don't try to endure, but cure the cause of all your suffering. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. The following letters prove this:

Mrs. W. S. Ford of 1938 Lansdo... St., Baltimore, Md. writes:

4 Are Killed; 17 Are Injured.

Los Angeles, Cal., March 26.—A special train on the Atchison, Topeka and Santa Fe railroad, carrying scores of students home from an intercollegiate field meet at Claremont, collided head-on with the outbound limted No. 2 on the same road while both trains were moving at a rapid rate within the city limits here. Four persons were killed and seventeen injured, several of them fatally. Both engines, one of the baggage cars on the overland limited and the smoker were demolished. The crash was terrific, and was heard many blocks away from the scene.

Preparations Are Suspended.

San Antonio, Tex., March 26.—Preparations relative to the movement of the Twenty-fifth infantry to the Philippines have been suspenedd. Chief Quartermaster Stevens has been notified to cancel all contracts for the movement which was to have begun at the end of this month. The departure is delayed through the influence of Senator Foraker who contended that it would not be for the good of the service to send the regiment short of officers. Many of the officers will have to remain here to complete testimony before the senate committee and courtmartial.

Dangers of Pneumonia.

There is nothing else "just as good." J. W. McCollum & Co.

President Castro has recovered sufficiently to receive ovations.

Now's the time for Senator Foraker to be either a man or a mollycoddle.

Massachusetts increased its "dry" vote at the recent municipal elections.

Insanity experts, convinced against their will, are of the same opinion still.

Abe Hummel must now see the advantage of having no reputation to sustain.

Mr. Roosevelt is a mollycoddle himself when it comes to tacking tariff remarks on Mayor Schmitz.

Every time Fairbanks looks at Taft he wonders how such a fat man can think of running for anything.

Henry Clews advises us to "avoid a man who, when he drinks habitually, drinks alone." Sure! Nothin' doin'.

After diagnosing the cases, Dr. Roosevelt may suggest the water cure treatment for railroads in the future.

Alfred Austin should cheer up. Frank L. Stanton says his latest poem, "Monastery Bells," has the "right ring."

The psychical researchers should weigh up a moribund corporation and determine the disputed point, whether or not it has a soul.

If John D. Rockefeller had spent as much money as the Fifty-Ninth Congress he would be a public charge in the Ohio poor house.

Chancellor Day is reported to have the mumps, and just at a time when the trusts need every defender with a gun in good working order.

"The population is now $553,000," says a Philadelphia paper. In view of Pittsburg's reputation we presume that it is that much to the bad.

The lawyer who has presented Anna Gould a bill for $175,000 for securing a divorce from Castellane, is an American, trained in New York ways, and not squalling.

A congressional committee recently exonerated Chief Weather Observer Willis, but we notice that the brand of weather he furnishes did not figure in the complaint.

"The ideal street car system," says Tom Johnson of Cleveland, "is one on which no fare is charged." The Golden Ruler's ideal world seems to be a universal almshouse.

Now they are wondering whether or not Mr. Roosevelt can fish. We are inclined to think that fishing for anything less than whales would prove welcome to the President.

A New York letter carrier has been called for the grand jury for failing to deliver political circulars. Here's a man who slipped up when he tried to be a public benefactor.

TAINTED MONEY.

Now Mr. Perkins, the partner of J. Pierpont Morgan, has paid back the tainted money to the New York Life Insurance Company, it is still more necessary that the Republican National Committee should repay Mr. Perkins. As Mr. Perkins has acknowledged it was morally wrong, if not legally punishable, to allow the trust funds that should be sacred to the widows and orphans to be plundered to advance the interests of the Roosevelt campaign and has therefore repaid the $50,000 with interest, it would seem to be the duty of President Roosevelt and Secretary Cortelyou to see that Mr. Perkins is repaid. As Morgan & Company, the Rockefeller interests and the other Wall Street magnates that control the life insurance companies are constantly needing favors from the Treasury Department, it must be awkward for the Roosevelt administration to refuse their requests while under these pecuniary obligations. Perhaps the unusual liberality of the Secretary of the Treasury with the public money, in the heighth of the panic, to the Wall Street interests was not influenced by the campaign contributions from those sources, although the newspaper reports state that the White House and Treasury Department were flooded with appeals to avert the "threatened disaster," but when it comes to a question of granting other favors to the Wall Street interests, the pecuniary obligations under which the administration labors might turn the scale in favor of Wall street instead of in favor of the people, to whom it is rightfully due.

It is difficult to understand a man with the high moral instincts of President Roosevelt allowing such a blot on the page of his political history, and nothing he can do will so add to his luster as to order the treasurer of the National Republican Committee to make restitution to the life insurance companies and repay Mr. Perkins. Until that is done every move of the Administration to aid the harassed financial interests of Wall Street will be charged up by the watchful public to the contributions of the corporation magnates to the Republican campaign fund. It may be very inconvenient to square accounts, for such contributions from the life insurance companies have been going on for years and the sum total runs up into hundreds of thousands of dollars. Restitution means a square deal, and to retain the tainted money means dishonor, written with letters of fire upon the pages of history.

The retail price of wagons and buggies is to be increased 50 per cent this spring, was the decision reached by the National Wagon Makers' Association at a meeting held at Chicago recently. A scarcity of the right sort of raw material and the car shortage were given as reasons for the advance. The car shortage would hardly seem a good reason for advancing prices, but the price of lumber and iron have advanced over 50 per cent, chiefly by the monopoly enjoyed by the lumber trust and the steel trust in consequence of the tariff protection on their products.

Do Plants Grow Erect?

Many trees and other plants have never as yet been definitely determined. Some of the scientists given it as their opinion that the phenomenon of erect growth is in some manner related to sunlight. That this hypothesis is probable was proved by Dr. Masters of England, who grew sprouts on green posts thrust underground in the mines to show the exact attitude.

The Gambler's Hands.

"That man is a 'night worker,' probably a faro dealer," said a detective to a friend as the two stood on a street corner the other afternoon, while the person alluded to by the detective passed by. "Know him?" asked the friend. "Not yet," replied the detective, "but I may later." "How do you know he's a faro dealer, then?" "I don't know it," was the reply, "but that he is in some such business is evident from the peculiar pallor of his face, which you may have noticed. You wouldn't get that particular shade if you worked in a bank or at a desk all day long. It's the artificial light and the bad ventilation that do it, I guess. Keeping in the noise of the rattling chips keeps out the air in most cases, and those dealers work as steadily and as regularly as anybody else. Perhaps you noticed, too, that his hands were smooth and clean, in far better condition than yours or mine or the average business man's. The professional gambler may not take his pallor, but he takes great pride in his hands."—Philadelphia Record.

Spoke For Himself.

It is told of Charles Lamb that one afternoon, returning from a dinner party, having taken a seat in a crowded omnibus, a stout gentleman subsequently looked in and politely asked, "All full inside?" "I don't know how it may be with the other passengers," answered Lamb, "but that last piece of oyster pie did the business for me."

A Fatal Omelet.

Ignorance of cooking is not often the direct cause of a man's death, but such an instance is related in "The Story of Two Salons." In the time of the French revolution one M. Condorcet, upon whose head as an aristocrat a price was set, sought refuge with a friend, M. Suard, who bade him return at nightfall, when means of escape would be provided. Unhappily Condorcet, being unable to exist without tobacco, went into a tavern to buy some. Still prostrate from fatigue, he thought he would take advantage of this opportunity to get some dinner and ordered an omelet.

"How many eggs do you wish to be used?" inquired the landlord, who had been eying him suspiciously. The innocent Condorcet was at his wits' end. He reflected on the size of the ordinary omelet.

"Twelve," he boldly replied.

His fate was sealed. None but an aristocrat could be so ignorant or so extravagant. He was arrested and led away to prison, from which he never emerged.

3,000 Team Drivers on Strike.

Boston, March 26.—With a strike of 6,000 team drivers in and about Boston, pending, the executive committee of the general truck team drivers' union No. 12, has been given full authority to act in the matter. A unanimous vote to this effect was taken at a meeting of the Union Sunday night. The trouble grew out of the refusal of the master team drivers to sign the working agreement for 1907 and 1908 presented to them by the team drivers' union. The new government calls for one-half hour less in a day's work, and a relief from Sunday and holiday work.

No Epidemic Killing People.

Laredo, Tex., March 26.—Reports of a mysterious epidemic prevalent at Reynosa, Mexico, have been given wide circulation and as high as 10 deaths are reported to have resulted. Mexican Consul Lomli, of this city, has wired Governor Arguelles, of the state of Tamaulipas, asking if there was anything in the report. He received a reply from the governor stating that there was no epidemic of any kind at Reynosa and that conditions there were good. The reports also stated that the place had been quarantined. No quarantine exists and there is absolutely no embargo on travel in that section. Reynosa is situated in Mexico just across the Rio Grande from Hidalgo, Mexico.

COLLEGE PARK LOTS NOW ON SALE

The Grandest Opportunity for the Far-Sighted Man With a Little Money to Invest Is, Without Doubt, COLLEGE PARK.

It is the best located suburban property in Gainesville, almost adjoining lots that for which owners are asking $500.00 and just across the street from The University of Florida, upon which the State is spending $1,500,000, and is on the most beautiful macadamized eighty-foot Boulevard in the Entire State, flanked with granolithic sidewalks which extend to the center of the city.

Every convenience is already available; city water, electric lights and telephone service—these essentials for suburban homes are there NOW. There is, absolutely, no suburban property in Florida today offering home-seekers the rich opportunity and the great advantages which College Park does.

It is safe to say that before they are paid for they will have **DOUBLED** or **TRIPLED** in VALUE—as investment propositions they are without a peer, and **Ten Dollars Down and Ten Dollars a Month Buys a Lot,** and **There Are No Taxes to Pay and No Interest.**

Call at our office over Dutton's Bank and make your selection NOW. Free Carriages to the grounds are waiting for you

Run-down People

NEED VINOL

the modern strength creator and body builder

Many people right here in this vicinity are all run down and hardly able to drag about—don't know what ails them.

In ninety-nine cases out of a hundred this is caused by overwork, too close confinement or continued strain and worry.

Our local druggist, W. M. Johnson, says: "Such people need Vinol, our cod liver preparation without oil, which contains in a highly concentrated form all of the medicinal and strength-creating elements of cod liver oil actually taken from fresh cods' livers, but from which the useless oil has been eliminated and tonic iron added."

Vinol cures conditions like this because in a natural manner it increases the appitite, tones up the digestive organs, makes rich, red blood, and strengthens every organ in the body.

We ask every man, woman and child in this vicinity who is run down, tired and debilitated to try Vinol on our offer to return money if it fails—W. M. Johnson, Druggist.

NOTE.—While we are sole agents for Vinol in Gainesville, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

John L. Thomas, A. S. Rehberg and C. C. Williams of Willeford were transacting business in this city yesterday.

Andrew Green and Joseph Davis of Agnes, Taylor county, were in the city Monday, having come on business connected with the United States land office.

Friends of J. E. Wainwright, one of the popular clerks in the United States land office, are glad to see him out again, after a light indisposition at his home.

Chas. S. Hill, civil engineer for the Cummer Lumber Company who has been assigned to temporary duty in Jacksonville, spent Sunday with his family here.

An interesting and largely attended meeting of the Citizen's Junior Club, an organization of young colored men, was held at Johnson's hall, North Pleasant street, Monday night, which endorsed the nominations of the Municipal League, also Benj. T. Arnow for marshal.

The S. J. Thomas Company are advertising refrigerators and ice cream freezers in this issue, realizing that the season for such things is now approaching. This is one of the oldest and most reliable firms in the country, carrying only the best line, and parties would do well to consult them.

W. P. Garrett, representing the L. A. Stroble Company, picture mouldings, Cincinnati, left yesterday for points in South Florida in the interests of his house. Mr. Garrett, who covers many of the Southern States, expects to proceed from South Florida to Georgia and through the Carolinas, terminating his trip for a time at Jamestown, where his firm will have a fine display. He will remain at the Jamestown Exposition for sometime.

A. D. Nelson, D. D. Dickinson and Alex Cunningham, three industrious colored men of the Windsor neighborhood, were in town yesterday and showed their appreciation of The Sun by the former renewing and the latter two subscribing for the paper. The colored people are rapidly learning that the only way to keep posted in regard to land sales and other matters of importance to them is through the columns of Alachua county's leading newspaper.
